

LOUISIANA ENERGY CONFERENCE

2023 ALL THINGS ENERGY

PANELIST COMPANIES

Afentra PLC
www.afentraplc.com

Panel, May 31, 2:30p

An upstream oil and gas company focused on opportunities in Africa, principally in West Africa where it has established a producing base offshore Angola. The Company's purpose is to support a responsible energy transition in Africa by establishing itself as a credible partner for divesting IOCs and Host Governments. Offshore Angola in the Lower Congo Basin, Afentra has a 4% non-operated interest in the producing shallow water Block 3/05 (increasing to 24% upon imminent completion of a deal with Sonangol, the NOC), 4% non-op interest in the adjacent development Block 3/05A, and a 40% non-op interest in the deepwater Block 23 in the Kwanza Basin. Afentra also retains a carried interest in the Odewayne Block, onshore southwestern Somaliland, which it inherited from Sterling Energy plc as it was formerly known prior to new Management and Board re-branding to Afentra plc in May 2021. It is based in London, the United Kingdom.

LSE: AET

All Coast, LLC
www.allcoastllc.com

Panel, May 30, 2:45p

Company owns and operates the largest fleet of Liftboats that service the offshore oil and gas market in the Gulf of Mexico. Its 29-vessel fleet includes the 250 ft. Great White, the newest Liftboat in the Gulf of Mexico. The Company is headquartered in Lafayette, Louisiana.

Private

Amplify Energy Corp.
www.amplifyenergy.com

Panel, May 31, 11:00a

Company engages in the acquisition, development, exploitation, and production of oil and natural gas properties in the U.S. Its operations are centered around producing and undeveloped leasehold acreage and working interests in identified producing wells located in Oklahoma, the Rockies (Bairoil), federal waters offshore Southern California (Beta), East Texas/North Louisiana, and Eagle Ford (non-operated). It is headquartered in Houston, Texas.

NYSE: AMPY

Beacon Offshore Energy
www.beaconoffshore.com

Panel, May 30, 2:00p

A privately held exploration & production company. It is focused on delivering high value, low carbon oil and gas from assets located in the deepwater Gulf of Mexico to the U.S. market. It is headquartered in Houston, Texas.

Private

Blue Star Helium Ltd.
www.bluestarhelium.com

Panel, June 1, 11:25a

An independent helium exploration and production company with operations and exploration in North America. It engages in finding and developing new supplies of low-cost, high-grade helium in North America. The Company controls over 300,000 gross acres in Las Animas County, Colorado and is actively working to develop its maiden prospect - Voyager. It is headquartered in Subiaco, Australia with the U.S. team residing in Colorado.

ASX: BNL

Cantium, LLC
www.cantium.us

Panel, May 30, 2:00p

An independent, privately held oil and gas exploration company. Its assets consist of 56 blocks covering over 150,000 acres in the shallow water Gulf of Mexico. Cantium's two operating areas are in Bay Marchand and Main Pass, focusing on oil production using advanced data analytics to extend the economic life of two of the largest oil fields in the Gulf of Mexico. The Company owns and is responsible for all infrastructure from the wellhead to the final sales point. It is headquartered in Covington, Louisiana.

Private

Capital Energy Read S.L.
www.capital-energy.es

Panel, June 1, 8:00a

An independent natural gas and LNG trading and marketing company, offering solid, liquid and gaseous fuels, LPG, and similar products. Its main operations are in Europe in the wholesale energy and capacity markets. Company is headquartered in Madrid, Spain.

Private

Cheniere Energy, Inc.
www.cheniere.com

Panel, June 1, 8:00a

Cheniere Energy, Inc. is the leading producer and exporter of LNG in the United States, reliably providing a clean, secure, and affordable solution to the growing global need for natural gas. Cheniere is a full-service LNG provider, with capabilities that include gas procurement and transportation, liquefaction, vessel chartering, and LNG delivery. Cheniere has one of the largest liquefaction platforms in the world, consisting of the Sabine Pass and Corpus Christi liquefaction facilities on the U.S. Gulf Coast, with total production capacity of approximately 45 mtpa of LNG in operation and an additional 10+ mtpa of expected production capacity under construction.

NYSE AMER: LNG

Cheniere is also pursuing liquefaction expansion opportunities and other projects along the LNG value chain. Cheniere is headquartered in Houston, Texas, and has additional offices in London, Singapore, Beijing, Tokyo, and Washington, D.C.

Chevron Corporation
www.chevron.com

Panel, May 30, 1:15p

A multinational energy corporation involved in hydrocarbon exploration, production, refining, marketing and transport, chemicals manufacturing and sales, and power generation. It is the second largest direct descendant of Standard Oil, and originally known as the Standard Oil Company of California. The Company is headquartered in San Ramon, California.

NYSE: CHX

Danos
www.danos.com

Panel, May 30, 4:10p

Company offers onshore and offshore customers an extensive range of integrated services, including production workforce, fabrication, construction, intelligent integrated materials solutions, project management, coatings, automation, instrumentation and electrical, scaffolding, shorebase and logistics, mechanical maintenance, regulatory compliance, power generation, valve and wellhead services. It has operations across in the Gulf of Mexico and North American shale plays. The Company is headquartered in Gray, Louisiana.

Private

Diversified Energy Company PLC
www.div.energy

Panel, May 31, 1:45p

The Company is an independent energy company engaged in the production, marketing and transportation of natural gas and associated liquids from its complementary onshore upstream and midstream assets, primarily located within the Appalachian and Central Regions of the United States. It is headquartered in Birmingham, Alabama.

LSE: DEC

Earthstone Energy, Inc.
www.earthstoneenergy.com

Panel, May 31, 8:00a

An independent energy company engaged in acquisitions and the development and operation of oil and natural gas properties. Its primary assets are located in the Permian Basin of New Mexico and west Texas. It is headquartered in The Woodlands, Texas.

NYSE: ESTE

Enterprise Offshore Drilling
www.enterpriseoffshore.com

Panel, May 30, 4:10p

The Company is a privately owned shallow water drilling contractor with offshore operations in the US Gulf of Mexico and Alaska. The Company

Private

owns a fleet of 13 jack-up rigs and manages an additional 3 jack-ups and 2 platform rigs. Company headquarters are in Houston, Texas and operations are supported by a shore-based facility in Houma, Louisiana.

Epsilon Energy Ltd.
www.epsilonenergyltd.com

Panel, May 31, 1:45p

A North American onshore focused independent oil and natural gas company engaged in the acquisition, development, gathering and production of oil and gas reserves. Our primary areas of operation are the Marcellus basin in northeast Pennsylvania and the Anadarko basin in Oklahoma. It is based in Houston, Texas.

NASDAQ: EPSN

Evolution Petroleum Corporation
www.evolutionpetroleum.com

Panel, May 31, 1:45p

An independent energy company focused on maximizing total returns to its shareholders through the ownership of and investment in onshore oil and natural gas properties in the United States. Properties include non-operated interests in the following areas: the Jonah Field in Sublette County, Wyoming; the Williston Basin in North Dakota; the Barnett Shale located in North Texas; the Hamilton Dome Field located in Hot Springs County, Wyoming; the Delhi Holt-Bryant Unit in the Delhi Field in Northeast Louisiana; as well as small overriding royalty interests in four onshore Texas wells. The Company is based in Houston, Texas.

NYSE: EPM

ExxonMobil - Low Carbon Solutions
www.corporate.exxonmobil.com

Panel, June 1, 8:40a

ExxonMobil established its Low Carbon Solutions business in early 2021, leveraging its unique combination of capabilities such as geophysics expertise and complex project management to establish a new business in carbon capture and storage, hydrogen and biofuels to accelerate emission reductions for customers and in its existing businesses.

NYSE: XOM

Fortify Energy, LLC
www.fortify.energy

Panel, May 31, 11:00a

An oil & gas company focused on maximizing returns across its diversified, production-focused portfolio. The Company is an affiliate of Arena Investors, an institutional asset manager that invests extensively in the energy sector. With over \$4.0 billion of assets under management, Arena provides creative solutions for those seeking capital in special situations. Fortify manages and operates Arena's controlled investments. Fortify is based in Houston, Texas.

Private

Forum Energy Technologies, Inc.
www.f-e-t.com

Panel, May 31, 3:25p

A global company, serving the oil, natural gas, industrial and renewable energy industries. With headquarters located in Houston, Texas, FET provides value added solutions aimed at improving the safety, efficiency, and environmental impact of our customer's operations.

NYSE: FET

Foundation Energy Management, LLC
www.foundationenergy.com

Panel, May 31, 11:00a

Foundation Energy Management is an institutional fund manager and operator of domestic oil and gas properties. The firm's strategy is to acquire, develop, and enhance upstream and midstream assets on behalf of its institutional partners. The company currently operates producing properties in nine states and is headquartered in Dallas, Texas.

Private

Granite Ridge Resources, Inc.
www.graniteridge.com

Panel, May 31, 1:45p

A scaled, non-operated oil & gas exploration and production company. The Company invests in a diversified portfolio of production and top-tier acreage across the Permian and four other prolific US basins in partnership with proven operators. The Company is focused on creating value by generating sustainable full-cycle risk adjusted returns for investors, offering a rewarding experience for its team, and delivering reliable energy solutions to all – safely and responsibly. It is headquartered in Dallas, Texas.

NYSE: GRNT

Greyhound Energy

Panel, May 30, 2:00p

Company provides Oilfield Chemicals, Fishing & Remedial Services, Tubular Running Services, Filtration, and General Logistics services to the oil and gas industry in Ivory Coast and the sub-region. It operates by leveraging a network of national, regional and International service providers & suppliers. It also has consultants in the region who work on various projects as needed. As it is an Ivorian company, it supports the local industry and prioritizes sourcing locally. The Company's U.S. offices are located in Houston, Texas.

Private

Gulf Island Fabrication, Inc.
www.gulfisland.com

Panel, May 30, 4:10p

The Company is a fabricator of complex steel structures and modules and provider of specialty services, including project management, hookup, commissioning, repair, maintenance, scaffolding, coatings, welding enclosures, civil construction and staffing services to the industrial and energy sectors. Its customers include U.S. and, to a lesser extent, international energy producers; refining, petrochemical, LNG, industrial

NASDAQ: GIF1

and power operators; and EPC companies. The Company is headquartered in The Woodlands, Texas, with primary operating facilities in Houma, Louisiana.

Hornbeck Offshore Services, Inc.
www.hornbeckoffshore.com

Panel, May 30, 2:45p

Private

The Company is a provider of marine transportation services to exploration and production, oilfield service, offshore construction and military customers. Its primary focus is on providing technologically advanced marine solutions to meet the evolving needs of the deepwater and ultra-deepwater energy industry in domestic and certain foreign locations. It has expanded its fleet of vessels through a series of acquisitions of existing vessels and new vessel construction programs. Company operates primarily in the Gulf of Mexico and Latin America, and also serves the U.S. military and other non-oilfield customers. It is headquartered in Covington, Louisiana.

Independence Contract Drilling
www.icdrilling.com

Panel, May 31, 3:25p

NYSE: ICD

Company provides land-based contract drilling services for oil and natural gas producers in the U.S. It constructs, owns, and operates a fleet of pad-optimal Shale Driller rigs that are specifically engineered and designed to accelerate its clients' production profiles and cash flows from their most technically demanding and economically impactful oil and gas properties. The Company is headquartered in Houston, Texas.

Key Energy Services
<https://www.keyenergy.com/>

Private

An onshore, rig-based well servicing contractor that operates in all major onshore oil and gas producing regions in the U.S. It provides a range of well intervention services including Well Servicing, Fishing & Rental Services and Cementing & Abandonment. It owns an extensive fleet of rigs that provide a wide range of services including production and completion services. The Company operates in all major onshore oil and gas producing regions of the continental U.S. It is headquartered in Houston, Texas.

KLX Energy Services Holdings, Inc.
www.klxenergy.com

Panel, May 31, 3:25p

NASDAQ: KLXE

A provider of diversified oilfield services to onshore oil and natural gas exploration and production companies operating in both conventional and unconventional plays in all of the active major basins throughout the U.S. It delivers oilfield services focused on drilling, completion, production, and intervention activities for technically demanding wells and offers a suite of complementary proprietary products and specialized services supported by skilled personnel and a portfolio of in-house manufacturing, repair and

maintenance capabilities. The Company is headquartered in Houston, Texas.

Laborde Marine Management
www.labordemarine.com

Panel, May 30, 2:45p

The company was founded in 1995 by Peter Laborde whose father was the founder of Tidewater, Inc along with his brother, Alden "Doc" Laborde. Laborde Marine Management Llc operates a fleet of more than 31 vessels, consisting of crewboats (FVS's), offshore supply vessels (OSV's) and passenger and car ferries for the New Orleans Regional Transit Authority (RTA). The offshore operations include servicing oil and gas exploration, drilling and production support, plug and abandonment (P & A) and other aspects of offshore marine support. It current operates in the Gulf of Mexico with exposure on the east coast, west coast and the Caribbean. The company is headquartered in New Orleans, Louisiana.

Private

LLOG Exploration Company
www.llog.com

Panel, May 30, 2:00p

One of the largest privately-owned exploration and production companies in the U.S. It focuses on acquiring, exploring and developing oil and gas fields in the deepwater Gulf of Mexico. The Company operates 100% of company-owned reserves. It is headquartered in Covington, Louisiana.

Private

Monarch Bioenergy
www.monarchbio.com

Panel, June 1, 1:45p

Monarch Bioenergy engages in renewable and scalable farm-based innovations that transform biowaste into valuable carbon-negative products: the lowest carbon intensity renewable natural gas, organic fertilizer, and prairie grass reclamation and combines ecology and economics at scale. The Company maintains industry relationships by partnering with TPG Rise Climate, Smithfield Foods, and Roeslein Alternative Energy, who provide operational expertise, sustainable farming innovations, and state-of-the-art technology. The company is headquartered in St. Louis, Missouri.

Private

NCS Multistage Holdings, Inc.
www.ncsmultistage.com

NASDAQ: NCSM

Company provides highly engineered products and support services that facilitate the optimization of oil and natural gas well construction, well completions and field development strategies. Services are provided primarily to exploration and production companies for use in onshore and offshore wells, predominantly wells that have been drilled with horizontal laterals in both unconventional and conventional oil and natural gas formations. Its products and services are utilized in oil and natural gas basins throughout North America and in selected international markets,

including Argentina, China, the Middle East and the North Sea. The Company is headquartered in Houston, Texas.

NextDecade Corporation
www.next-decade.com

Panel, June 1, 8:40a

NextDecade is committed to providing the world access to cleaner energy. Through its wholly owned subsidiaries Rio Grande LNG and NEXT Carbon Solutions, the Company is developing a 27 MTPA LNG export facility in South Texas along with one of the largest carbon capture and storage (CCS) projects in North America. In addition to the planned CCS project at Rio Grande LNG, NEXT Carbon Solutions is developing post-combustion carbon capture projects at third-party sites through deployment of its proprietary processes that lower the cost of carbon capture and storage and reduce CO2 emissions at industrial-scale facilities. The Company is headquartered in Houston, Texas.

NASDAQ: NEXT

PEDEVCO Corp.
www.pedevco.com

Panel, May 31, 10:25a

PEDEVCO Corp. (NYSE American: PED), is a publicly traded energy company engaged in the acquisition and development of strategic, high growth energy projects in the United States. PEDEVCO's principal assets are its San Andres Asset located in the Northwest Shelf of the Permian Basin in eastern New Mexico, and its Denver-Julesberg ("D-J") Basin Asset located in the D-J Basin in Weld and Morgan Counties, Colorado. PEDEVCO is headquartered in Houston, Texas.

NYSE AMER: PED

PetroTal Corp.
www.petrotal-corp.com

Panel, May 31, 2:30p

Oil and gas development and production company domiciled in Calgary, Alberta, focused on the development of oil assets in Peru. PetroTal's flagship asset is its 100% working interest in Bretana oil field in Peru's Block 95 where oil production was initiated in June 2018. In early 2022, PetroTal became the largest crude oil producer in Peru. It is actively building new initiatives to champion community sensitive energy production, benefiting all stakeholders. Its U.S. offices are located in Houston, Texas.

TSX: TAL

ProPetro Holding Corp.
www.propetroservices.com

Panel, May 31, 3:25p

Oilfield services company providing completions services to leading upstream oil and gas companies engaged in the exploration and production of North American unconventional oil and natural gas resources. The Company is headquartered in Midland, Texas.

NYSE: PUMP

PRT Offshore
www.prtoffshore.com

Panel, May 30, 4:10p

Oilfield service provider specializing in Deepwater offshore well completion and intervention. It provides an exclusive line of Deepwater equipment and technical services to a customer base from independent up to super major oil and gas companies. The Company specializes in Surface and Subsea Well Access with a focus on providing innovative, simplistic solutions. The Company's headquarters is in Houston, Texas.

Private

Ranger Energy Services, Inc.
www.rangerenergy.com

Panel, May 31, 3:25p
Panel, June 1, 9:20a

One of the largest providers of high specification mobile rig well services, cased hole wireline services and ancillary services in the U.S. Its services facilitate operations throughout the lifecycle of a well, including the completion, production, maintenance, intervention, workover and abandonment phases. It is headquartered in Houston, Texas.

NYSE: RNGR

Ring Energy, Inc.
www.ringenergy.com

Panel, May 31, 8:00a

Growth oriented independent exploration and production company engaged in oil and natural gas development, production, acquisition, and exploration activities currently focused in the Permian Basin. The Company's primary drilling operations target the oil and liquids rich producing formations in the Northwest Shelf and Central Basin Platform in West Texas. The Company is headquartered in The Woodlands, Texas.

NYSE AMER: REI

Royal Helium Ltd.
www.royalheliumltd.com

Panel, June 1, 11:25a

Controls over 1,000,000 acres of prospective helium land across southern Saskatchewan and southeastern Alberta. All of its lands are in close vicinity to highways, roads, cities and close to existing oil and gas infrastructure, with a significant portion of its land in close proximity to existing helium producing locations. The Company's helium reservoirs are carried primarily with nitrogen, which is not considered a greenhouse gas (GHG). Helium extracted from wells in Saskatchewan and Alberta can be up to 90% less carbon intensive than helium extraction processes in other jurisdictions. The Company is headquartered in Saskatoon, Canada.

TSXV: RHC

Seadrill Limited
www.seadrill.com

Panel, May 30, 4:10p

Provides offshore contract drilling services to the oil and gas industry worldwide. It operates in three segments: Harsh Environment, Floaters, and Jack-ups Rigs. It owns and operates drill ships, semi-submersible rigs and jack-up rigs for operations in shallow and ultra-deep-water in benign and harsh environments. It serves oil super-majors, state-owned national

NYSE: SDRL

oil companies, and independent oil and gas companies. Company is headquartered in Hamilton, Bermuda., and its U.S. offices are in Houston, Texas.

SilverBow Resources, Inc.

www.sbow.com

SilverBow Resources, Inc. (NYSE: SBOW) is a Houston-based energy company actively engaged in the exploration, development, and production of oil and gas in the Eagle Ford Shale and Austin Chalk in South Texas. With over 30 years of history operating in South Texas, the Company possesses a significant understanding of regional reservoirs which it leverages to assemble high quality drilling inventory while continuously enhancing its operations to maximize returns on capital invested.

NYSE: SBOW

Southern Energy Corp.

www.southernenergycorp.com

A natural gas exploration and production company characterized by a stable, low-decline production base, a significant low-risk drilling inventory and strategic access to premium commodity pricing in North America. Southern has a primary focus on acquiring and developing conventional natural gas and light oil resources in the southeast Gulf States of Mississippi, Louisiana, and East Texas. Our management team has a long and successful history working together and have created significant shareholder value through accretive acquisitions, optimization of existing oil and natural gas fields and the utilization of re-development strategies utilizing horizontal drilling and multi-staged fracture completion techniques. It is headquartered in Calgary, Canada.

Panel, May 31, 10:25a

TSXV: SOU
AIM: SOUC
OTCQX: SOUTF

Talos Energy, Inc.

www.talosenergy.com

An energy company focused on offshore oil and gas exploration and production and the development of future carbon capture and storage opportunities in the United States Gulf Coast, Gulf of Mexico and offshore Mexico. The company is committed to safe, reliable and responsible energy while providing energy solutions that are critical to modern society, including conventional resources and carbon management solutions to reduce industrial emissions. The Company is headquartered in Houston, Texas.

Panel, May 30, 1:15p
Panel, June 1, 8:40a

NYSE: TALO

Tamboran Resources Limited

www.tamboran.com

Natural gas company that focuses on developing unconventional gas resources in Australia. Company endeavors to support the net zero CO2 energy transition in Australia and Asia-Pacific through developing low CO2 unconventional gas resources in the Northern Territory of Australia. It holds premium acreage in the highly prospective Beetaloo/McArthur basin

Panel, May 31, 2:30p

ASX: TBN

and is strategically positioned to commercialize these resources to address a forecast domestic energy shortfall and as a feed supplier to existing Australian LNG plants. It is based in Manly, Australia.

Tascosa Energy Partners, LLC
www.tascosaenergypartners.com

Panel, May 31, 8:00a

Oil and gas company that focuses on drilling and production operations in the Permian Basin. It is currently engaged in building assets in Southwest New Mexico, targeted on horizontal drilling in both the Bone Springs and Wolfcamp formations along with exploitation in conventional formations such as the Delaware group. The Company is headquartered in Midland, Texas.

Private

Tidewater, Inc.
www.tdw.com

Panel, May 30, 2:45p

Provides offshore support and marine support services to the offshore energy industry worldwide through its fleet of anchor handling towing supply vessels, platform supply vessels, crew boats, utility vessels, and offshore tugs. Its vessels provide services including towing and anchor handling for mobile offshore drilling units; transporting supplies and personnel to and from offshore rigs; workover production activities; offshore construction, and seismic and subsea support as well as geotechnical survey support for windfarm construction; and pipe and cable laying. Company's customers include independent exploration and production companies, foreign government-owned organizations; drilling contractors; offshore construction, windfarm development, diving, and well stimulation companies. It is headquartered in Houston, Texas.

NYSE: TDW

Vaalco Energy, Inc.
www.vaalco.com

Panel, May 31, 2:30p

Energy company that acquires, explores for, develops, and produces crude oil, natural gas, and natural gas liquids. Following its business combination with TransGlobe in October 2022, the Company owns a diverse portfolio of operated production, development and exploration assets across Gabon, Egypt, Equatorial Guinea and Canada. It is headquartered in Houston, Texas.

NYSE/LSE: EGY

Verde Clean Fuels, Inc.
www.verdecleanfuels.com

Panel, June 1, 1:45p

Renewable energy company in the U.S. that specializes in the conversion of synthesis gas, or syngas, derived from feedstocks, such as biomass, municipal solid waste, and mixed plastics, as well as natural gas, including synthetic natural gas and other feedstocks, into gasoline through proprietary liquid fuels technology. It was originally founded in 2007 as Primus Green Energy and in 2020 became Bluescape Clean Fuels. In early 2023 Bluescape merged with CENAQ Energy Corp and became

NASDAQ: VGAS

Verde Clean Fuels, Inc. The Company is headquartered in Houston, Texas.

Vital Energy, Inc.
www.vitalenergy.com

Panel, May 31, 8:00a

Vital Energy, Inc. is an independent energy company with headquarters in Tulsa, Oklahoma. Vital's business strategy is focused on the acquisition, exploration and development of oil and natural gas properties in the Permian Basin of West Texas.

NYSE: VTLE

W&T Offshore, Inc.
www.wtoffshore.com

Panel, May 30, 1:15p

Oil and natural gas producer with operations offshore in the Gulf of Mexico that has grown through acquisitions, exploration, and development. As of 3/31/23, the Company had working interests in 47 fields in federal and state waters and has approximately 625,000 gross acres across the outer continental shelf off the coasts of Louisiana, Texas, Mississippi and Alabama. A majority of the Company's daily production is derived from wells it operates. It is headquartered in Houston, Texas.

NYSE: WTI
